

The Stein-Bloch Three Button Single Breasted Sack

—shaped conservatively to please the man of quiet tastes, who nevertheless values his self-respect enough to be anxious for sound style. The coat is a trifle shorter than the other sacks. Its materials include rough and smooth worsteds, serges, saxony, and smooth and finished cassimeres, and English homespun in plaids, checks and mixtures, greys and browns, and the ever popular blues and blacks.

TERSELY TOLD.

E. M. Lovelace, of Brewton, Ala., a prominent citizen of that place, reached the city yesterday afternoon on one of his regular visits.

Tallahassee Capital, March 22: Hon. John S. Beard, the brilliant young lawyer from Pensacola, is here conferring with Col. S. I. Wales at Mrs. Long's. * * * Mrs. R. P. and B. S. Williams, of Pensacola, were among yesterday's arrivals at the Leon.

A. S. Leath, who is engaged in the pig iron, coal and coke business in Birmingham, will reach the city this morning, and will spend several days here as the guest of his brother, J. H. Leath. Mr. Leath is one of the prominent dealers in this line of business in Birmingham.

The many friends of Miss Mae O. Wheat will be pleased to learn that she has just received her commission as postmaster at Fort Barrancas, and will assume charge of her duties on April 1. This is the first appointment made in West Florida by President Roosevelt since his inauguration, and meets with the hearty commendation of the officers and men at the post. Miss Wheat relieves Miss Emily McEllan, who has resigned.

Takes less. Flavors perfectly. Blue Ribbon Lemon and Vanilla Extracts. Pure, strong, delicious.

CHRISTIAN SCIENTISTS RESPONSIBLE FOR DEATH.

By The Associated Press.
New York, March 23.—The inquest by the coroner has begun into the death of A. W. Nunn, a resident of Brooklyn, who died recently from a fracture skull received in a fall. Nunn was treated by Christian Science methods until the matter came to the attention of the authorities, after which he died in a few days.

A physician who examined Nunn testified that Nunn had been subjected to the Christian Science treatment for six weeks, despite the fact that with ordinary medical treatment he would have recovered in a short time. The hearing was not concluded.

A Significant Sign.
New York, March 23.—It is reported that the government of Bolivia intends, says a Herald dispatch from Santiago de Chile, to send many young men who display talent to Santiago to study in the military academy. This is accepted as a significant sign of the rapprochement of the sister republics.

Emperor Starts on Cruise.
Cuxhaven, March 23.—Emperor William started today on his Mediterranean cruise on board the steamer Hamburg, placed at his disposal by the Hamburg-American line. The Hamburg was escorted by the armored cruiser, Prinz Friedrich Karl.

HON. A. V. CLUBBS WITHDRAWS FROM RACE FOR MAYORALTY

**Says He Has Decided Not to Be a Candidate
for the Position, and Gives His Reasons
in an Interview With The Journal.**

HAD BEEN PURSUED TO ENTER RACE AND PROMISED THAT IF HE WAS ELECTED A RECORDER WOULD BE APPOINTED, BUT FOUND CONDITIONS DIFFERENT THAN REPRESENTED.

Hon. A. V. Clubbs, who the Anti-Primary people tried to induce to run for mayor of Pensacola, has withdrawn from the race, and as a result those who are fighting the White Primary are left without a candidate for the most important position in the city.

Mr. Clubbs came to this conclusion Wednesday night, according to his statement, and yesterday morning notified Secretary Ward of the Anti-Primary forces, of his decision. The announcement, however, was not published in the afternoon paper.

Mr. Clubbs was seen last night by a Journal representative and asked if it was true that he had withdrawn from the race as an Anti-Primary candidate. He said:

"Yes, it is true that I have withdrawn from the race. When the matter was first brought up my great objection was that, if I should be elected, I might have to act as police judge. I was persuaded by friends, however, that this was not necessary, and if I made a request for a recorder that it would be granted.

"However, not being a lawyer or politician, I consulted some of my friends and took their advice. This was that it was a very uncertain matter whether or not a recorder would be appointed by the council, as the old members of that body, as well as the new members, would have a vote in the matter, and all depended upon this vote.

"Under these conditions I at once saw that I might be called upon to perform duties repugnant to my feelings, and after my consultation I went home and addressed a letter to Secretary Ward, withdrawing from the race. This was written Wednesday night, and placed in the hands of Mr. Ward yesterday morning at 9 o'clock. "My nomination by these gentlemen and my acceptance of the same had been made conditional, as it were, but I decided Wednesday night, after looking thoroughly into the matter to withdraw at once."

Sign of the Times.
St. Petersburg, March 23.—One of the best signs of the times is the announcement today that in a fortnight the ministry of public instruction will undertake the elaboration of a plan for a compulsory system of primary education. Representatives of the schools in the principal cities are intended to participate in the drawing up of the plan.

Steamer in Distress.
Horta, Azore Islands, March 23.—The Danish steamer Hecla from Copenhagen and Christiansen for New York which put in here yesterday with her rudder post broken, grounded on entering the harbor today, but subsequently was refloated. She is leaking slightly. All her passengers and crew are well.

TREASURE SEEKING EXPEDITION FAILED.

By Associated Press.
Lima, Peru, March 23.—The Peruvian transport Chalaco proceeded to Panama yesterday, taking the officers and crew of the British yacht Veronique, which was engaged in the treasure-seeking expedition of Cocos Island. The enterprise, which was headed by Earl Fitzwilliam, resulted in disappointment. The Veronique has been purchased by Peru for \$150,000 and will be used as a coastguard vessel.

SERIOUS ACCIDENT IN NEW YORK SUBWAY.

By The Associated Press.
New York, March 23.—Motorman James was seriously injured, several persons were slightly hurt, and traffic in the subway was blocked for half an hour, during the rush hours early today as a result of a rear-end collision of two trains at 116th street. The accident is said to have resulted from a misunderstanding of signals by the motorman.

NEWBERRY ASSISTANT SECRETARY OF NAVY.

By Associated Press.

TO INSPECT RIVER WORK

CONGRESSIONAL COMMITTEE INVITED TO VISIT FLORIDA.
STATE FARED WELL IN APPROPRIATIONS.

Having made comparatively liberal appropriations for the rivers and harbors of the state of Florida, the river and harbor committee of the house of representatives will no doubt accept of the following invitation to visit Jacksonville and inspect the work that has been done on the St. Johns river, under the appropriations made in previous years, says the Jacksonville Times-Union.

"Hon. T. E. Burton, Chairman River and Harbor Committee, Washington, D. C.: Dear Sir—I am informed by Senator J. P. Tallaferra of this city that the river and harbor committee have in view making a trip to Cuba and Porto Rico at no distant date. In behalf of the Board of Trade I wish to extend to you and your committee a most cordial invitation to favor us with a visit and give us an opportunity to show you what has been accomplished in the way of deepening our river and harbor since your last visit. I trust that you can arrange to bring your committee here the coming spring or summer, either on the occasion of your proposed visit to Cuba and Porto Rico or at any other time that it may suit your convenience, and I beg to assure you a hearty welcome. Very truly yours, C. E. GARNER, President."

Hon. Stephen M. Sparkman of Tampa, member of congress from the First Congressional District of Florida, is a member of the river and harbor committee, and it is principally through Congressman Sparkman's efforts that the committee has decided to make the trip to Cuba and Porto Rico and to take in Florida in its route.

Florida Fared Well.
In the last river and harbor bill Florida fared very well, through the earnest efforts of Congressman Sparkman, Davis and Lamar, and Senators Tallaferra and Mallory. The total appropriations for the St. Johns river, for new work and continuing contract, amounted to \$400,750.

In addition to the appropriations in the river and harbor bill, the sundry civil bill, passed by the last congress, carried an appropriation of \$205,000. For continuing the improvement from Jacksonville to the ocean and completion of contract authorization. So, it will be seen, that the total appropriations for the St. Johns river by the last congress amounted to \$614,750.

Local Committee's Work.
In view of the fact that the river and harbor committee of the Jacksonville Board of Trade has worked persistently to secure appropriations for the St. Johns river improvements, and the efforts of the committee had much to do with securing the appropriations, the Jacksonville Board of Trade has reason to be proud of the committee's work.

In recognition of the interest taken by the committee in the river improvement, Captain R. G. Ross, the well-known jetty contractor, has arranged with Major Francis Shunk, engineer in charge of the St. Johns river improvement, under the direction of the War Department, to give the committee a trip on the river, so that the committee can see just what has been done.

To Inspect the Work.
Major Shunk, who, by the way, has been lately promoted to the rank of major in the United States Engineer Corps of the army, having heretofore been Captain Shunk, will accompany the committee on the trip on board the new dredge and snagboat Florida, if that boat is available. If the Florida cannot be secured, then one of Captain Ross's tugs will be used. The trip will be made next Tuesday, due announcement will be made of the time of departure and return. The members of the river and harbor committee of the Board of Trade are: W. W. Cummer, C. M. Cooper, Dexter Hunter, R. B. Archibald, B. H. Barnett, D. G. Ambler, E. C. Long, R. G. Ross, N. B. Broward, Theo. G. Eger, W. A. Bourne, Jno. G. Christopher, J. P. Tallaferra, J. H. Durkee, C. B. Rogers, George W. Wilson, J. S. Fairhead, C. P. Lovell, George W. Paulding, Harold Weston.

KEY WEST VIEW OF PROPOSED ROAD

PEOPLE OF EAST COAST MORE INTERESTED THAN CITIZENS OF ISLAND CITY.

The residents of the east coast of Florida are evidently more interested in the construction of the railroad to Key West than are our own people, says the Key West Inter-Ocean. As soon as the name Key West is mentioned to a resident of the east coast, he at once wants to know something about the railroad to Key West.

Some few of these people have conceived the idea that the building of the road to Key West will detract from the east coast, while others believe it will simply add to its attractiveness. Of the latter opinion are all those who have looked carefully into the matter and studied results.

The construction of the railroad to Key West is such a novel proposition that the work in itself will induce many visitors to come and see it.

The route lies across numerous sea girt islands, whose green foliage is a verdant in mid-winter as it is in spring, and in the warm placid water every variety of fish will be visible from the car windows. No one in this latitude can conceive the delights this novel trip will furnish to the tourist from the ice-bound states of the north. Those who come as far south as Palm Beach and marvel at the glorious climate of Florida have a great surprise in store for them when the iron horse guides them over the beautiful islands of the gulf.

Bank of England Dividend.
London, March 23.—At the half yearly meeting of the Bank of England today a dividend of 4½ per cent was declared. The net profits for the six months ending February 28 were \$3,299,445.

VISIT OF THE GRAND MASTER

OF THE ODD FELLOWS OF FLORIDA—A MOST INTERESTING MEETING HELD LAST NIGHT.

A most enthusiastic and interesting meeting of the Odd Fellows of the city was held last night, when Grand Master Thos. W. Ralph, of St. Augustine, paid an official visit to the local lodges.

The meeting was held in the I. O. O. F. hall on West Garden street, and was attended by more than one hundred members, representing the Joppa and Pensacola lodges.

The grand master delivered a most instructive address, and one which was greatly appreciated by the members. In fact, from the comments made later the talk of the grand master was by far the best ever listened to in the Odd Fellows hall.

Mr. Ralph is here on his annual visit to the local lodges, and will remain in this section for possibly a week, during which time he will visit Muscogee, Century, Warrington, Milton, Bagdad and DeFuniak.

STATEMENT

Made under Section 35, Chapter 4115, Laws of Florida, showing the amount of taxes charged to the tax collector of Escambia county, Florida, to be collected for the tax year 1904, and the apportionment of same to be several funds for which such taxes have been levied, including poll tax with county school tax:

Total amount charged to taxes	\$82,671 65
Amount collected to Feb 8, 1905	38,496 94
Balance	\$44,174 71
County tax proper	\$20,776 58
Amount collected to Feb 8, 1905	10,404 25
County school tax	\$67,794 58
Amount collected to Feb 8, 1905	17,968 77
County Road and Bridge	\$18,207 02
Amount collected to Feb 8, 1905	6,008 70
County Fine and Forfeiture Tax	\$3,210 63
Amount collected to Feb 8, 1905	4,161 70
County Bond Tax	\$2,493 19

SECRETARY SHAW IS IN NEW YORK

CONSULTED WITH LOCAL INTERESTS CONCERNING SUGGESTED TARIFF REVISIONS.

By Associated Press.

New York, March 23.—Secretary of the Treasury Shaw has visited this city, and, together with Senator Allison of Iowa, consulted with local interests, it is said, concerning proposals connected with suggested tariff revisions, to be considered by a special session of congress in the fall.

Senator Allison, who is ranking member of the senate finance committee in the absence abroad of the chairman, Senator Aldrich, has been here since Monday conferring with representatives of various trades as to possible effects of reductions in schedules affecting their products.

Senator Allison would not discuss the trades to be affected, but it is intimated by the Herald that in order to make up the deficiency in revenue through reduction of certain tariff schedules, several of the least obnoxious of the internal revenue taxes imposed during the war with Spain may be revived.

A QUEER FISH.

The Now Scarce Dugong Is the Mermaid of Fabled Lore.

The strangest of all strange fish must surely be the manatee and the dugong. The latter is the mermaid of fabled lore. The dugong live in flocks along the shores of the Indian ocean, the Red sea and the gulf of Manar, where they browse on seaweed and river vegetation. They are very affectionate in disposition, and especially is this shown in the love of the mother for her offspring, which is much stronger than the instinct of self preservation. Neither will the male leave the female if she be attacked, and instances are on record where the companions of the manatee gathered round and made an effort to withdraw the deadly harpoon. It is supposed that the rude approach to the human outline observed in the shape of the head of the dugong, the attitude of the mother in clasping her young to her breast with one flipper while swimming with the other, holding both above water, and suddenly diving and showing her fishlike tail when alarmed, gave rise to the mermaid myth, first told by the Arab seamen. Jules Verne gives a thrilling description of the capture of a dugong in the Red sea, when its flesh was desired as food. Naturalists tell us that the flesh of the manatee and the dugong much resembles well fattened pork, of pleasant flavor, and is highly esteemed as food. For this reason they were much hunted and are fast becoming extinct.—Field and Stream.

TRICKY BRAIN CELL.

What Happens When We Know a Name Which Escapes Us.

The anatomy of the nervous system and consequently its physiology was regarded in the past as very simple. Cayal showed that the specific brain cell is an independent unit provided with multiple processes, by means of which it is capable of acting not through one nerve alone, but several. This independent brain unit or cell is called a neuron.

A simple illustration of how the neuron works is furnished by our not infrequent hunt for a name or an idea which we know we possess. We feel that the name is there, but we cannot recall it. We get various names near it, beginning even with the same letter or the same vowel sound, yet only after minutes or even hours does it actually occur to us.

What is supposed to happen is that the particular cell of intelligence which we are using throws out its process among the cells of memory for names, and, though this process is brought in connection with cells containing similar names, it is only after a more or less prolonged search that it hits on the right one. It is as if the telephone operator in the central office felt around blindly for the connection wanted and only after putting the plug into various holes eventually struck the proper one.—Dr. Joseph Walsh in Book-lovers Magazine.

The Blind Man's Ear.

The degree to which the remaining senses can be trained when the sight is lost was illustrated the other morning by two blind men from a home for the blind. The men came from opposite directions, and as they approached each other a man standing on the corner was surprised to hear one of the blind men say: "Hello, Ed! What are you doing out this morning?" When the blind man was asked how he had known the other with a distance of five yards between them he answered: "By the sound of his cane, of course. I can tell at the distance of half a square the tap of the cane of any man in the home."—Philadelphia Record.

Grief and White Hair.

The mustaches of Henry III. of Navarre are reported to have become partially white in a few hours after hearing of the concession of the edict of Nemours. The hair of an English banker, owing to reverses in business, became gray in three days, according to the Encyclopedia Metropolitana. According to the same authority, a man about forty years old, who at his marriage had a dark head of hair, "on his return from his wedding trip had his hair turn so completely snow white, even to his eyebrows, that his friends almost doubted his identity."

The utmost good that whiskey may contain is in

Old Quaker Rye

The grain is thoroughly cleaned—the mash is fermented in perfect temperatures. Then it is twice distilled in copper. The whiskey is aged for years in oaken barrels.

You get pure old rye when you call for Old Quaker. Don't let the dispenser give you just "whiskey."

Superfluous Hair Is Curable.

Madam:

Are you afflicted with this disease?
Are you still using a RAZOR?
Are you still using a TWEEZER?

Then you **certainly** have not used **MA-JI**!

Dr. Alexander Grossman, the eminent Hair Specialist, has after 15 years of research and experimenting, discovered an absolute remedy for this unsightly disease.

GUARANTEED to destroy the coarsest growth or money REFUNDED.

and we can
Prove It.

The above is not the result of magic, but of this wonderful, Discovery named **MAJI**. This photograph is but ONE of the THOUSANDS of cases that **MAJI** has cured.

MAJI is endorsed and recommended by the most reputable Physicians as the ONLY Remedy for PERMANENT removal and destruction of SUPERFLUOUS HAIR.

MAJI

acts QUICKLY and PERMANENTLY.

The action of this wonderful Compound commences immediately on its application to the parts afflicted. It does not burn the hair, thus making it return more coarse and brittle than ever. **MAJI** goes to the root of the Evil, it destroys the CAUSE of the growth, it destroys the factors favorable to its growth. **MAJI** cures by destroying the PRODUCTIVE conditions that cause this disease. If you want to be cured, if you want to dispense with the razor, if you want to discard the heavy veil you are compelled to wear to conceal this humiliating, unsightly blemish, get a bottle of **MAJI** now, at once.

If your druggist does not keep it, send \$1.00 to us direct and it will be mailed to you (postage prepaid) in plain wrapper.

The Turkish Remedy Co.,

Dept. W. 161 Columbus Avenue,
New York, N. Y.

Remember, MAJI is guaranteed to cure or money refunded.
